

MUHAMMAD JUNAID AMIN

Full-Stack & Mobile Developer | iOS (Swift & SwiftUI) | Flutter & Backend Engineer

Islamabad, Pakistan | itsmejunaidamin@gmail.com | +92 349 5196977 | linkedin.com/in/junaid-amin-6bb237268 | github.com/JunaidAminnn

PROFESSIONAL SUMMARY

Versatile Full-Stack & Mobile Software Engineer specializing in native iOS development (Swift, SwiftUI) alongside extensive hands-on expertise in Flutter cross-platform development, having delivered the majority of production mobile applications using Flutter. Skilled in full-stack system architecture, combining high-performance mobile applications with custom Python backend services, web admin dashboards, and complete Firebase suite integrations (Cloud Firestore, Authentication, Crashlytics, Realtime Debugging). Experienced in production database deployment on Hostinger, Stripe payment gateway processing, and predictive machine learning models.

WORK EXPERIENCE

Software Engineer (Full-Stack & Mobile) February 2026 – Present
Pixoraft Solutions, Islamabad

- Architected a multi-platform ecosystem featuring a Python backend server powering 3 mobile apps (iOS/Flutter) and an admin web dashboard, with full Firebase suite integration (Cloud Firestore, Auth, Crashlytics, Debugging).
- Deployed production databases on Hostinger, integrated Stripe Payment Gateway for transactions, and engineered custom full-stack e-commerce web platform solutions.

App Developer August 2025 – February 2026
Secure Cypher Solutions, Islamabad

- Led end-to-end development of mobile applications, focusing on scalable architectural design, UI/UX optimization, and high-performance feature implementation.
- Architected native iOS and cross-platform mobile features using Swift, SwiftUI, and Flutter to ensure seamless responsiveness.

Associate Software Engineer (Intern) February 2025 – August 2025
Brick Dust Technologies

- Focused on native iOS app development, gaining deep insights into the Apple software ecosystem, CloudKit, Firebase, and Human Interface Guidelines (HIG).
- Managed App Store Connect submission workflows, app provisioning profiles, and build release distribution processes.

Machine Learning (Intern) June 2024 – August 2024
Arch Technologies

- Engaged in applied machine learning tasks involving data preprocessing, feature engineering, model training, and performance evaluation.
- Utilized Python data science libraries (Pandas, NumPy, Scikit-learn) to develop predictive algorithms supporting software automation.

PROJECTS

Published App Portfolio (iOS & Flutter) 2024 – 2026

- Lemon IPTV:** Developed IPTV streaming application allowing users to watch global live TV channels via M3U playlist links.
- Calculator Vault Pro:** Published high-security privacy application with over **1,000+ daily active users**.
- Khatta Flow:** Developed and published native financial management mobile app for tracking cash flows and transactions.
- Digital Tasbeeh:** Islamic utility app featuring a Qibla Finder, Quran reader, Tasbeeh counter, and automated prayer times system.

Pixoraft Admin Web Dashboard 2026

- Built a modern, responsive web admin dashboard connected directly to the core Python backend powering the mobile applications, featuring real-time Firebase data sync and analytics.

Online Art Gallery (Personal E-Commerce Platform) 2024

- Developed a full-stack e-commerce web platform using HTML, CSS, JavaScript, and MySQL with secure database management for inventory and user transactions.

Smart AI-Powered Agriculture System (Final Year Project) 2025 – 2026

- Developed an intelligent IoT agriculture monitoring system (Flutter, SwiftUI, Node.js, MySQL, ESP32) using Python ML models (Pandas, NumPy, Scikit-learn) for data-driven crop management based on soil moisture, temperature, and humidity.

Network Security & Penetration Testing 2024

- Executed security audit simulations identifying system vulnerabilities using Evil Twin and Camphish attack vectors to enhance system defenses.

EDUCATION

Bachelor of Science in Software Engineering Graduated: 2026

Capital University of Science & Technology, Islamabad | CGPA: 3.01 / 4.00

HSSC (Higher Secondary School Certificate) Graduated: 2022

Punjab College Ayub Park Campus, Rawalpindi

SSC (Secondary School Certificate) Graduated: 2020

Lahore School System, Islamabad

SKILLS

- **Mobile Engineering:** Flutter (Dart), Native iOS (Swift, SwiftUI), App Store Connect Management
- **Firebase Ecosystem:** Cloud Firestore, Authentication, Crashlytics, Analytics, Realtime Debugging & SDK Integration
- **Backend Engineering & Cloud:** Python, MySQL Database Deployment (Hostinger), RESTful APIs, Stripe Integration
- **Frontend & Web:** Web Admin Dashboards, HTML5, CSS3, JavaScript, Full-Stack System Integration
- **Machine Learning & Hardware:** Python (Pandas, NumPy, Scikit-learn), ESP32 Microcontrollers, IoT Sensors

CERTIFICATIONS

- **Microsoft Applied Skills:** Cloud Games & Interactive Learning Achievement
- **Government Certified Technical Graduate:** Honhaar Jawan Program (IT Training Initiative)
- **Kamyab Freelancer Program:** Professional Technical Training & Freelancing
